

TeleVantage Small Office Edition

The complete turnkey solution for small businesses.
Future-proof architecture for tomorrow's growth.

Feature for Feature, No Other Phone System Provides More for Your Money.

TeleVantage® Small Office Edition is a feature-rich, software-based phone system that combines rock-solid stability with the most advanced communications technology available today. Built on an open-systems architecture and supported by world-class Intel® hardware, TeleVantage provides more value for your money than any other phone system, while safeguarding your investment for the future.

The right phone system is a strategic asset. Your phone system is often the first interaction customers have with your company. With Artisoft's TeleVantage Small Office Edition you can make a professional first impression and improve your bottom line today, with the flexibility to expand as you grow. Perfectly tailored to meet the needs of small businesses, TeleVantage Small Office Edition is a complete turnkey solution that comes out of the box ready to plug in and transform how your company communicates. Preinstalled on a powerful server running Microsoft® Windows™ 2000, it includes Intel Dialogic telephony boards that support four analog or ISDN BRI trunks and eight phone stations. TeleVantage Small Office Edition includes all of the standard features of the award-winning TeleVantage software such as powerful voicemail and call control, multi-level auto attendant, automatic call distribution (ACD), and personalized greetings and call handling, while its graphical administration makes it a snap to maintain.

Includes eight full-featured display phones. Rounding out this state-of-the-art package are eight feature-rich speaker phones, each with soft key access to TeleVantage features including transfer, park, conference, voicemail and more. The phones have a large LCD screen, which displays call information and helpful menus customized for TeleVantage, as well as a message waiting lamp. You can also use any standard phone including analog full-duplex speaker phones, cordless phones, and headsets.

Easily upgrade and expand your system. When it comes to expansion, TeleVantage Small Office Edition is ready when you are. The server can be easily upgraded with additional Intel Dialogic telephony boards and software licenses to handle 16 trunks and 48 phones. By swapping the server chassis and adding telephony hardware and software licenses, you can expand up to 264 phones and 96 trunks including analog, T1, E1, ISDN PRI, BRI, and VoIP—all while maintaining your existing telephony hardware and without disturbing your users' settings or voice messages. Or add Agent licenses to enable the full-featured TeleVantage Call Center which includes caller priority, overflow agents, monitoring and coaching, automatic call recording, comprehensive reporting, and more. Plug in TeleVantage Small Office Edition and gain a competitive edge today at an affordable price.

Find out why
TeleVantage is
the world's most
intelligent
phone system.
